Tomer Rajuan

tomer.rajuan@gmail.com | +49-17643216376 | Berlin, Germany | LinkedIn

Fullstack Engineer with a product-focused mindset and deep expertise building scalable web and mobile applications. Experienced in delivering high performance, end to end solutions across both the private and public sectors. Passionate about clean, well architected code and executing intuitive, strong UI/UX.

Professional Experience

Klarna - Fullstack Engineer — Oct 2023 - Present | Berlin, Germany

- **Scale & Performance:** Led client-facing initiatives serving **tens of millions** of active users, ensuring high availability and seamless user experiences that accelerated platform growth.
- **Product Ownership:** Designed and developed core services for the Discounts and Referral Programs, leading end-to-end delivery across product design and compliance. **Drove substantial user acquisition** while optimizing system performance to ensure seamless UX under peak high-volume traffic.
- **System Architecture:** Architected scalable system components and shipped high-impact features from design to production while leading cross-functional team alignment.
- **Event-Driven Systems:** Designed complex **Kafka** integrations to enable robust, reliable data-sharing mechanisms across multiple engineering teams.
- **Risk & Security:** Investigated and mitigated sophisticated fraudulent referral patterns, closing critical system vulnerabilities to **prevent substantial financial losses.**
- **Team Leadership:** Mentored team members across feature execution and architecture, acting as a primary technical contact and onboarding engineering joiners.

Tech Stack: TypeScript, JavaScript, Node.js, React Native, React, Kafka, AWS (DynamoDB, IAM), React Query, Express.js, Claude, Cursor, GitHub, K6, Jest, Datadog, Braze, Storybook, Figma

init AG - Frontend Engineer — Oct 2020 - Aug 2023 | Berlin, Germany

At **init AG**, I worked on key projects for various German public sector ministries and foundations:

- **Federal Ministry for Family Affairs:** Developed core components for **Germany's primary** digital parental allowance application platform, contributing to a full digitalization of the system.
- **State Ministry for Digital Affairs (Bayern):** Developed an interactive map application to visualize and display various data-heavy GeoJSON objects (highways) across Bayern, Germany.
- **State Ministry for Digital Affairs and Transportation:** Developed an interactive map application to track big regional projects across Germany.
- **Bertelsmann Foundation (Wegweiser Kommune):** Implemented the complete **redesign** of a major demographic statistics platform, and built the interactive map integration.

Tech Stack: TypeScript, JavaScript, React, Redux, Leaflet, OpenLayers, GeoJSON, Vite, Atomic Design, React Testing Library, Jest, HTML5, CSS/Sass, Figma, GitLab

Education

Full Stack Web Development | Spiced Academy Berlin | 2019

Core Strengths & Personal

- **Soft Skills:** Social, Communicative, Collaborative, Honest, Respectful, Curious.
- **Interests:** I enjoy cooking, sports, chess, and developing side projects to bring creative ideas to life.
